PWG F2F

Introduction

- The PWG held a series of Cloud BOF's over 5 PWG F2F meetings. After the BOF's concluded their work, a decision was made to create the Cloud WG.
- The Cloud WG focus is around providing a set of specifications to support Cloud-based printing, scanning, and facsimile (collectively called "Cloud Imaging").
- The Cloud BOF's provided us with a basic functional model, including Client, Cloud Print Provider, Cloud Print Manager, and Printer.
- The Cloud WG will be providing multifunction bindings for both IPP and SOAP.
