

## IPPV2 Conference Call Minutes October 5, 2009

Meeting was called to order at approximately 4 pm (ET) October 5, 2009.

### Attendees

Tom Hastings (Xerox)  
Ira McDonald (High North)  
Michael Sweet (Apple)  
Paul Tykodi

### Agenda Items

1. IP Policy and Minute Taker
  - a. Policy accepted with Mike taking the minutes
2. Approved IPP minutes from 14 September
  - a. <ftp://ftp.pwg.org/pub/pwg/ipp/minutes/IPPV2-ConCall-Minutes-20090914.pdf>
3. IANA IPP Registry status (Tom/Ira)
  - a. Ira's status report: new registrations to not require section numbers, just document numbers
4. Discussion of Cancel-Job/Purge-Jobs extensions
  - a. Agreed that a new operation called Cancel-Jobs is preferred to overloading Purge-Jobs or Cancel-Job
    - Required printer-uri
    - Optional job-ids (1setOf integer) or my-jobs (boolean) operation attributes
  - b. Agreed to add the job-ids (1setOf integer) operation attribute to Purge-Jobs for purging selected jobs
  - c. Agreed to add the job-ids (1setOf integer) operation attribute to Get-Jobs for getting selected jobs
  - d. New jobs-ids-supported (boolean) printer description attribute
5. Review IPP Production Printing Set2 (Tom)
  - a. <ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippprodprintext10-v6-20091004.pdf>
  - b. <ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippprodprintext10-v6-20091004-rev.pdf>
  - c. <ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippprodprintext10-v6-20091004.doc>
  - d. <ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippprodprintext10-v6-20091004-rev.doc>
  - e. Agreed that new Cancel-Jobs operation will replace all use of Purge-Jobs by ordinary users
  - f. Agreed that users can save proofed jobs
  - g. Agreed to eliminate Purge-Jobs tables
  - h. Agreed that saved jobs in the aborted state cannot be reprocessed or resubmitted
  - i. Agreed that http scheme support is a SHOULD and file scheme support is a MAY
  - j. Agreed to remove discussion of concatenating save-name and save-location
  - k. Agreed to update discussion of sub-directories and slashes in save-name - implementation defined, may depend on the save-location, printer will return client-error-attributes-or-values-not-supported
  - l. Agreed to remove hard-proof discussion; if save job is supported, proof job must also be supported
  - m. Agreed that you can't supply document-format to Resubmit-Job
  - n. Agreed to update pdl-init-file-name like save-name

- o. Agreed to the updated proof-print (collection) description
- p. Agreed that proof-print jobs can be "aged out" like ordinary jobs (although they may live longer than ordinary jobs)
- q. Agreed that proof-print jobs end up in the completed state, not pending-held
- r. Agreed that the operation can resubmit proof-print jobs with a higher priority to get the job printed first - no need for extended discussion
- s. Agreed to the removal of copies of existing standard text
- t. Agreed to the removal of the proof-print-wait state reason
- u. Agreed to add job-printed-successfully, job-printed-with-errors, job-printed-with-warnings, job-saved-with-errors (replaces job-save-error), job-saved-with-warnings job-state-reason keywords
- v. Agreed to remove the new definitions of job-completed-successfully, job-completed-with-warnings, and job-completed-with-errors
- w. Agreed to add a footnote describing relationship of job-completed-xx, job-printed-xx, and job-saved-xx.
- x. Agreed to updated list of media-type member attribute values
- y. Agreed that both Reprocess-Job and Resubmit-Job are REQUIRED

### **Next Steps / Open Actions**

- Review major PPE2 changes at PWG F2F on October 14, 2009 at 3pm PST
- Review updated draft of PPE2 at next teleconference
- Next teleconference will be in three weeks (October 26, 2009)
