IPPv2 Conference Call Minutes
April 19, 2010

Meeting was called to order at approximately 4 pm (ET) April 19, 2010.

Attendees

> Tom Hastings (retired Xerox)
> Ira McDonald (High North)
> Michael Sweet (Apple)
> Paul Tykodi (TCS)
> Bill Wagner (TIC)
> Rick Yardumian (Canon)
> Gail Giansiracusa (Kyocera)

Agenda Items

1. IP Policy and Minute Taker
   a. Policy accepted with Tom taking the minutes
2. Approved IPP minutes from IPP face to face, April 7, 2010
   a. `ftp://ftp.pwg.org/pub/pwg/ipp/minutes/ippv2-f2f-minutes-20100407.pdf`
3. Review of IPP Job and Printer Operations Set2 (Tom)
   a. `ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippjobprinterext10-v25-20100418-rev.pdf`
   b. Agreed to NOT add any of the 3 new operation attributes 'job-hold-until-time', 'job-delay-output-until' and 'job-delay-output-until-time' to the existing Job-Hold operation, but implementers are free to do so. Instead, only add these 3 to Set-Job-Attributes operation (as well as the Job Creation operations). Then it is clear what the effect will be on a job, since the attributes are explicitly supplied in the operation.
   c. Agreed that the 'job-hold-until' and 'job-hold-until-time' are mutually exclusive, and that setting one with Set-Job-Attributes, cancels the effect of the other. Same for 'job-delay-output-until' and job-delay-output-until-time. However, that either of the attributes of the first pair can be supplied along with either of the second pair and they independently control the holding the processing and the delaying output of the job. Add section to explain this.

Next Steps / Open Actions

• Next IPP telecon May 10, 2010 at 4pm (ET)
• Tom: add above agreements to JPS2.
