

IPPV2 Face-to-Face Minutes April 7, 2010

Meeting was called to order at approximately 3:40 pm (PT) April 7, 2010.

Attendees

Nancy Chen (Okidata)
Tom Hastings (Xerox - call in)
Ira McDonald (High North - call in)
Glen Petrie (Epson - call in)
Ole Skov (MPI Tech)
Brian Smithson (Ricoh - call in)
Michael Sweet (Apple)
Jerry Thrasher (Lexmark - call in)
Paul Tykodi (TCS - call in)
Bill Wagner (TIC)
Rick Yardumian (Canon)
Pete Zehler (Xerox)

Agenda Items

1. IP Policy and Minute Taker
 - a. Policy accepted with Mike taking the minutes
2. Approved IPP minutes from March 29
 - a. <ftp://ftp.pwg.org/pub/pwg/ipp/minutes/ippv2-concall-minutes-20100329.pdf>
3. Review of IPP Everywhere
 - a. Action: Mike to post formal vote, Cc Ira and Paul, include summary and links
 - b. Discovering available printers: one solution DNS service discovery via VPN?
4. Review of IPP Job and Printer Operations Set2 (Tom)
 - a. <ftp://ftp.pwg.org/pub/pwg/ipp/wd/wd-ippjobprinterext10-v24-20100406-rev.pdf>
 - b. Agreed that a new job-state-reason for delayed output that has been fully processed but cannot be printed is not necessary - job-queued and job-queued-for-marker can be used to indicate the job is ready but not actively processing/printing.
 - c. Related updates to job-delay-output-until time sequence diagram, plus some additional annotations.
 - d. Agreed that job-delay-output-until is separate from job-hold-until, and that while an implementation might choose to delay processing until the specified delay time, it does not use the pending-held state unless job-hold-until is also specified.
 - e. Agreed that a printer MUST add the job-hold-until-specified reason for a job that is held using job-hold-until-time.
 - f. Agreed to add job-delay-output-until-specified to the list of job-state-reasons. Will not add job-delay-output-until-suspended (see 4b)
 - g. Agreed to update Cancel-Jobs and Cancel-My-Jobs to return successful-ok-ignored-or-substituted-attributes and a list of job IDs that could not be canceled in the unsupported group of the response.
 - h. Agreed to add discussion of job-hold-until-time replacing job-hold-until and visa-versa.
 - i. Agreed to add sections discussing the new semantics for Hold-Job and Set-Job-

Attributes WRT job-hold-until + job-hold-until-time and job-delay-output-until and job-delay-output-until-time.

Next Steps / Open Actions

- Next IPP telecon April 19, 2010 at 4pm (ET)
