

# MFD Working Group

2008-09-25 Conference Call Minutes

## **1. Attendees**

Lee Farrell (Canon), Nancy Chen (Okidata), Bill Wagner (TIC), Glenn Petrie (Epson), Pete Zehler (Xerox)

## **2. Agenda**

1. Identify Minute Taker
2. Approval of minutes from 9/18 teleconference
3. Review latest Resource Service Specification
4. Next Steps

## **3. Identify Minutes Taker**

Pete Zehler

## **4. Accept Previous Minutes**

There were no objections to the previous Minutes.

## **5. Review latest Resource Service Specification.**

We continued the review starting on line 322

1. (line 323) The storage types will be taken from Host Resources MIB. FlashMemory will represent non-removable and FlashCard will represent removable flash. We will add NetworkStorage to handle any off box storage. NetworkDisk will not be used.
2. (line 329-352) Delete.
3. (Line 344) Change name to StorageInfo.
4. (section 6.1.1) We need to add StorageUri that is applicable to type NetworkStorage.
5. (line 372) Add clarification that ResourcesSupported from the base class is not applicable to the Resource Service itself. (No Last Call comment for Scan is required since it is not being removed from the base class.)
6. (436) Clarify that in this context IsAcceptingJobs applies to the storing and retrieval of resources
7. (line 444) Clarify that this base class element does not apply to this service.
8. (line 479) Remove any reference to Internal (e.g. InternalStorageFull).
9. (line 578) Added DateTimeOfExpiration as a Description element.
10. (line 578) Added ResourceFormat as a Description element that contains a choice of ResourceNamespace or DocumentFormat.
11. (line 585) Change the list of types to multiple columns to make it easier to read.
12. (section 6.5.1) Add ResourceCategory.
13. (section 6.5.2) Add DateTimeAtCreation and DateTimeAtLastUpdate.

## **6. Next Steps**

Teleconference to be held 10/9/08 to review updated document and schema.
