

The PWG Semantic Model v2 file manifest (work in progress)

Filename	Description
addressing.xsd	Standard W3C/WS-*/xmlsoap schema
Conditions.xsd	Schema for condition tables (alert tables in MIB)
CopyService.xsd	Schema for CopyService
Counter.xsd	Schema for usage counters
dc.xsd	Dublin Core file
dcmitype.xsd	Dublin Core file
dcterms.xsd	Dublin Core file
DocumentTypes.xsd	Abstract base class definition for Documents
EmailInService.xsd	Experimental (and incomplete) schema for EmailInService
EmailOutService.xsd	Experimental (and incomplete) schema for EmailOutService
FaxInService.xsd	Schema for FaxInService
FaxOutService.xsd	Schema for FaxOutService
http.xsd	Standard W3C/WS-*/xmlsoap schema
include.xsd	Standard W3C/WS-*/xmlsoap schema
JobTypes.xsd	Abstract base class definition for Jobs
MediaElements.xsd	Media related common elements
MediaWellKnownValues.xsd	Media related Well known values (i.e. keywords)
oasis-200401-wss-wssecurity-secext-1.0.xsd	Used by experimental CloudPrint (WS-Security)
oasis-200401-wss-wssecurity-utility-1.0.xsd	Used by experimental CloudPrint (WS-Security)
Power.xsd	Power monitoring and management
PrintJobTicket.xsd	PrintJobTicket, PrintJobReceipt, PrintDocumentTicket, PrintDocumentReceipt
PrintService.xsd	Schema for PrintService
PrintServiceCapabilities.xsd	Schema for representing supported elements and allowed values for a PrintJobTicket
PrintServiceDefaults.xsd	Schema for representing defaults for a PrintJobTicket
PwgCloudPrintQueue.wsdl	Experimental(and incomplete) CloudPrint Service interface definition
PwgCloudPrintMsg.xsd	Experimental(and incomplete) schema for Request/Response messages for CloudPrint service
PwgCommon.xsd	Elements, complex types and simple type definitions used throughout the model
PwgCommonOpMsg.xsd	Complex type definitions used in multiple services operations
PwgCopy.wsdl	Copy Service interface definition
PwgCopyOpMsg.xsd	Request/Response message schema for Copy service
PwgDeprecated.xsd	Convenience file documenting some element mappings from IPP to PWG SM
PwgFaxIn.wsdl	Experimental(and incomplete) FaxIn Service interface definition
PwgFaxInOpMsg.xsd	Request/Response message schema for FaxIn service
PwgFaxOut.wsdl	FaxOut Service interface definition
PwgFaxOutOpMsg.xsd	Request/Response message schema for FaxOut service
PwgPrint.wsdl	Print Service interface definition
PwgPrintOpMsg.xsd	Request/Response message schema for Print service
PwgResource.wsdl	Resource Service interface definition
PwgResourceOpMsg.xsd	Request/Response message schema for Resource service
PwgScan.wsdl	Scan Service interface definition
PwgScanOpMsg.xsd	Request/Response message schema for Scan service
PwgSecurity.wsdl	Experimental Security Service interface definition
PwgSecurityOpMsg.xsd	Experimental Request/Response message schema for Security service

Filename	Description
PwgSemanticModel.xsd	Root of the PWG Semantic Model schema
PWG_SM_2.0.spp	XMLSPY project file
PwgSystemControl.wsdl	System Control Service interface definition
PwgSystemControlOpMsg.xsd	Request/Response message schema for System Control service
PwgTransform.wsdl	Experimental(and incomplete) Transform Service interface definition
PwgTransformOpMsg.xsd	Request/Response message schema for Transform service
PwgWellKnownValues.xsd	Non-media related Well known values (i.e. keywords)
qualifieddc.xsd	Dublin Core file
ResourceService.xsd	Schema for ResourceService
saml-schema-assertion-2.0.xsd	Standard W3C/WS-*/xmlsoap schema
ScanService.xsd	Schema for ScanService
Security.xsd	Experimental system Security schema
Services.xsd	Schema for Services
ServicesOperations.xsd	Convenience file to provide schema view of operations defined in WSDLs
ServiceTypes.xsd	Abstract base type for saervices
Subunits.xsd	Schema for subunits (i.e. Configuration)
System.xsd	Schema used by System object (i.e. PWG Semantic Model root)
SystemControlService.xsd	Schema for SystemControlService
SystemHealth.xsd	Experimental SystemHealth schema
TransformService.xsd	Experimental (and incomplete) schema for TransformService
xenc-schema.xsd	Standard W3C/WS-*/xmlsoap schema
xml.xsd	used by Dublin Core
xmldsig-core-schema.xsd	Standard W3C/WS-*/xmlsoap schema
xmlmime.xsd	Standard W3C/WS-*/xmlsoap schema
